Detailed information in the company profile

Company Reports & Company Reports Plus³

The Company Reports cover **1,000 companies** across **16 industries** and enable a comprehensive overview of the most important key figures. The Company Reports offer a springboard for key data and information, both of which are critical for understanding and benchmarking

market players. This is achieved by presenting **over 40 KPIs** in up to eight thematic areas: company overviews, key stock performance metrics, financial numbers, competitive landscapes, market valuations, employee figures, eCommerce, social media presence, and sustainability achievements.

Toplists³

The Statista Toplists contain the top companies of an industry or country, based on their revenue. The Toplists are particularly suited to helping you familiarize yourself with the list of leads of various industries and countries,

or as a basic research for further market assessments. They contain contact details of the companies, total sales, number of employees, and annual growth rates.

Coming updates

In the coming months, the continuous expansion of features as well as improvements to the quality of the Company DB are planned.

All scheduled updates and releases can be viewed in our release calendar at: www.statista.com/content/release-calendar#toplists
